PUBLIC NOTICE.

NOTICE IS HEREBY GIVEN THAT Tenders for the Construction of a Pack Trail between Shuswap Lake and the Columbia River, by way of Eagle Pass, are invited to be sent into this office up to noon of Saturday, the 6th of June next.

The trail is to be made on the line selected by Government, and in accordance with specifications, which may be seen at the Lands and Works Offices, in New Westminster and Victoria.

Tenders are requested to state both the cash price for which they will construct this trail, and also the terms of Toll Charter on which they will undertake the work; viz., at what rates of Toll and for what period—power being reserved by Government to redeem such Toll right at any time on payment to the Contractor of the cash price asked by him for the work.

With each Tender must be enclosed a Bond of the person tendering, and two sureties with him, for the payment to Government of the sum of $1000, one thousand dollars conditional on the fulfilment of the terms of such Tender, if accepted by Government, within fourteen days from the 6th June, above mentioned.

The Government will not be bound to accept the lowest or any tender.

Tenders should be sealed, addressed to the undersigned, and superscribed "Tender for Eagle Pass Trail."

By Command,
JOSEPH W. TRUTCH,
Lands and Works Office, New Westminster, May 12th, 1868. my14

Lytton Hotel

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY—
Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe-

Dipthera, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and

will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	ings,	Ulcers,
Chilblains,	Lumbago,	Wounds
Chapped Hands,	Piles,	Yaws.
Corns, (Soft)	Rheumatism	

Sold at the establishment of PROFESSOR HOLLOWAY 244 Strand, (near Temple Bar,) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices: 1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each Pot.

*** There is considerable saving by taking the larger size

LIQUOR CARBONIS DETERGENS
OR

Concentrated Alcoholic Solution of the COAL TAR

[Extract from the Lancet, Dec. 22, 1866

LIQ. CARBONIS DETERGENS— We are very sceptical of the

that we tried the liq. carbonis detergens. It is represented to be a concentrated alcoholic solution of the constituents of coal tar, and to contain all the active ingredients of the tar, to wit, benzine, napthaline, and phenic

durable emulsion, in which the tar remains in a state of fine suspension, almost equivalent to solution. Our therapeutical experience of the preparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin diseases, especially of the chronic eczematous class; and one case of psoriasis which had resisted all other kinds of treatment speedily got well under the application of the liq. carbonis detergens. We esteem it a very valuable addition to our list of skin remedies, and worthy of a very extended trial by the profession. In the above classes of disease, and in various others, such as fetid ulcers, etc., the preparation is put into the form of soap.

PURE COAL TAR SOAP
(Registered as Sapo Carbonis Detergens.)

This Soap is unrivalled as a

Skin Soap

as proved by abundant medical testimony. By daily use infectious diseases are prevented, and a clear and healthy appearance imparted to the skin.

Sold in tablets at 6d and 1s each, by all Chemists.

The above are manufactured by the Sole Proprietors,

AYER'S
Sarsaparilla
FOR PURIFYING THE BLOOD,

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that anything you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan, of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration* of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes: "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried everything, and everything failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was *worth trying*. By the blessing of God it has cured me, and has so purified my blood as to made a new man of me. I feel young again. The best that can be said of you is not half

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action,

posed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated; the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of stomach and bowels, which, if not quickly attended to frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertigo dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend.

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthma has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion—Billious Headache.

These complaints may sometimes be considered trifling neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula King's Evil
Asthma	Fevers of all kinds	Sore Throats
Billious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel Complaints	Headache	Tic-Douloureux
Colic	Indigestion	Tumours
Constipation the Bowels	Inflammation	Ulcers
	Jaundice	
Debility	Lumbago	
Dropsy	Piles	Worms of all k
Dysentery	Rheumatism	Weakness, fr
Erysipelas	Retention of Urine	whatever cau
&c.	&c.	&c.

Sold at the Establishment of PROFESSOR HOLLOWAY, Strand (near Temple Bar), London, and by all respectable Druggists and Dealers in Medicines throughout the civil world, at the following prices:—1s. 1½d, 2s. 9d., 4s. 6d, 11s., 22s., and 33s. each Box.

*** There is considerable saving by taking the larger sizes.

Full directions for the guidance of patients in every disease affixed to each Box. oc31-W

The above Cartridges are made in three sizes, viz., .577 (or Snider Enfield) bore; .500 (or half-inch) bore; and .451 (or small) bore.

These **Cartridges** have been adopted after careful comparative trials against all other descriptions, by **Her Majesty's War Department**, as the Standard **Rifle Ammunition** for the **British Army**, and are not only used exclusively for the **Snider Rifle**, but are adapted to all other systems of military **Breech Loading Rifles.**

They are the cheapest Cartridges known, carrying their own ignition, and being made wholly of Metal, are Waterproof and imperishable in any climate.

Boxer Cartridge Cases (empty), of all three sizes, packed with or without bullets, and machine for fastening same in Cartridges.

Makers of **Boxer Cartridges** .450 bore, for Revolving Pistols, in use in Her Majesty's Navy.

Pin Cartridges for Lefaucheux Revolvers of 12 M, 9 M, and 7 M, bore, **Central Fire** and **Pin Fire Cartridges,** for all sizes of Guns, Rifles and Revolvers.

Double Waterproof and E B Caps. Wire Cartridges for killing game at long distances. Felt Waddings to improve the shooting of guns; and every description of Sporting and Military Ammunition.

THE BRITISH COLONIST.

Saturday Morning, May 30, 1868.

TO ADVERTISERS.

☞Transient Advertisements must be paid for in advance to insure insertion.

TO AGENTS.

☞Settlements of accounts will be required monthly, or the supply of papers will be discontinued. The daily and weekly issues will be furnished at the lowest cash rates and no exception will in future be made to this rule.

The careful reader of the press of one of the leading countries in the world will be astonished to find that, at present, he can scarcely take up a paper without finding something about British Columbia. We have recently, as occasion offered, called attention to this fact, and shown by copious extracts the prominent attention this hitherto despised country is attracting. As long as those whose duty it is to assist in moulding public opinion of her merits do not overstate the truth in this respect, but confine themselves strictly to her vast resources and important geographical position, it is well to let the world know we understand her importance and are determined to continue the battle until we receive the justice she is entitled to from those who have hitherto treated her with contempt and neglect. The [illegible] done for a country in the languishing condition in which this Colony has been for years, is to revive a legitimate and honest confidence amongst her own people, and then they will more highly appreciate the attention which other people are disposed to bestow upon them. In this spirit we have endeavored to perform the duties devolving upon ourselves, and in this spirit we shall continue our labors, even at the risk of occasionally appearing prosy to some of our readers. One of the most important convictions to be created in the minds of our people in anticipation of the destiny which is rapidly shaping itself for them, is that Canadian statesmen have a sincere desire to do them justice. Thus, in a recent interesting debate in the Canadian Parliament upon departmental organization, we find Sir John A. Macdonald speaking thus of the wishes and demands likely to be made by this Colony when she entered the Union:

"At present, in commencing their new system, the chief object, it seemed to him, was to have such a large full Cabinet as would secure a proper representation from all parts of the Dominion. By and by, when they were a more homogeneous people, every portion of the country might be satisfied with the representation in the Cabinet—even although sectional interests were not closely regarded. But at present it would be a great mistake to commence by a reduction of the representation in the Cabinet. Take British Columbia for a case in point. When that Colony came into the Union, would they be satisfied with their representation if only one man were in the Cabinet from that section. They would not, even although their population or resources entitled them to no greater representation. Setting aside altogether the question of expense, as one of no interest in comparison with the general question, it was, first of all and above all, the duty of every lover of the Union to see that no false economy was exercised; that there should be a full and complete system of administration, which would secure to every portion of the Dominion a fair representation in the Cabinet."

The extract we give above, and the expressions it contains may at first appear too trifling to be taken special notice of, but in connection with the [illegible] the desire of Canada as expressed by her statesmen to do her justice in the important matter of representation it assumes quite a different feature. It shows two things well worthy of our attention—first, that the colony and her claims are seldom now out of the consideration or the mouths of those in whose estimation it is desirable she should stand well; and next, that in seeking through union with us, to establish Confederation beyond all reverses and danger, we can put in no equitable right, no just claim, no natural demand, that will not receive a ready and honorable acceptance. This spontaneous consideration of what our wishes are likely to be in the important matter of representation is worth more than a thousand forced unmeaning compliments, and goes far, in our opinion, to silence those who have no confidence in the honesty, intelligence, and liberality of Canadian statesmen. It is well to maintain with resolution that which we adopt upon principle. Let us all in our individual spheres attain a true knowledge of what the country really is and what she really requires, and then in those great events hastening to consumation in which she must play an important part hereafter, let us maintain her dignity and interests to the last. Adopting the liberal and enlightened spirit with which the colony is now regarded on all sides, let us ask nothing but what is just, and we shall ask nothing in vain.

SIXTH INDUSTRIAL EXHIBITION
—OF—
The Mechanics' Institute,
SAN FRANCISCO, CALIFORNIA.

THE BOARD OF DIRECTORS OF the Mechanics' Institute hereby give notice that the Sixth Industrial Exhibition of that Association will be held some time in August next, in a building to be erected for the purpose in Union Square in this city. Every preparation will be made to accommodate exhibitors and visitors with a view to make the Exhibition profitable, instructive and pleasant to all parties.
During the three years which have intervened since the holding of the last Exhibition in this city the manufacturing, mechanical, scientific and useful and ornamental arts have made unprecedented progress on this coast, and it is believed that the proposed Exhibition will exceed any other in value that has ever been held on the shores of the Pacific.
The plan of building to be erected, which has been adopted by the Board of Directors, it is believed will prove to be the best adapted, both for display and convenience of the public, of any building ever erected in the State. The building will be perfectly water tight, being covered with a shingle roof, so that no damage from the elements can be anticipated.
All parties who are interested in any of the branches of Manufactures, Mechanics, or the Arts and Sciences are invited to exhibit in the proposed Exhibition, and to share in the publicity and consequent profit which always attends such enterprises. Suitable premiums will be offered, and the specific date of opening the Exhibition will be published at some future time.
By order of the Board of Directors.
HORACE D. DUNN, Cor. Secretary.

S.T-1860-X.

A great French physician says: "More than half of the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the body and breed disease."
Now, it is a fact, positive and well-known, that there is no such bulwark and assistant for the Stomach as
PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order."
The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. If w much more reasonable and sensible it is to help her along with a gentle, yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures, which only stupefy and plant the seeds of disease and death.

Important Certificates:

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
Rev. W. H. WAGGONER, Madrid, N.Y."

"* * * Thou will send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy friend,
ASA CURRIN, Philadelphia, Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
Rev. J. S. CATHORN, Rochester, N.Y.

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect. G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer.
The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from. Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.
Any person pretending to sell PLANTATION BITTERS in bulk or by the gallon, is a swindler and impostor. Beware of re-filled bottles. See that our Private Stamp is
Sold by all Druggists, Grocers and Dealers throughout the world.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitoes, Ants, Bugs.
IT KILLS INSTANTLY.
What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is
FREE FROM POISON.
No article has ever given such positive satisfaction in its use.
Its reputation is well known. It is easily and readily used—directions accompany each flask. Beware of counterfeits.
The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.
Sold by all Druggists and dealers on the Pacific coast.

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.
No compound has ever been invented so efficacious and useful in curing
RHEUMATISM, STIFF AND WEAK JOINTS, BRUISES, SPRAINS, SORE THROAT, BURNS, EAR ACHE, FRESH CUTS OR WOUNDS, SWELLINGS.
Or any other complaints requiring an external application.
FOR HORSES
It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-Bone, Wind Galls, Bruises, Strains, &c.
It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy
All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the private stamp of DEMAS BARNES & Co over the top
An effort has been made to counterfeit it with a cheap stone plate label. Look closely!
Sold by all Druggists and Stores in every town and mining camp on the Pacific coast. ja29 1y2p 1af

A CANADIAN paper says :—'The English talk of connecting London with Bombay by railway. The whistle of the steam-engine is to be heard throughout the valley of the Euphrates, and from Constantinople to Aleppo, Bagdad and Bassorah. The time for the journey is set down for eleven days.' The English people certainly will do it; and then if they would adopt the scheme laid out by Mr Dallas, and connect British Columbia and Canada, what an inconceivable grandeur would surround our national domain and national name. If properly taken up by parties of influence over the money circles of London, the necessary amount could be obtained in a very short time. The Americans talked seventeen years about their overland railroad, and when it became necessary as a national movement it will be nearly completed in three years. That is the way to work for national supremacy, expansion, commerce and dominion.

FREDERICK Whymper, formerly of the Vancouver Island Exploring Expedition, and more recently one of the artists employed by the Western Union Telegraph Company to accompany the Russian-American construction party on the now abandoned Overland line, has been invited to lecture before the Royal Geographical Society, of London. Mr Whymper, besides three summers, passed a winter in the North, that he might sketch the winter phenomena of the Arctic regions. He resided in this city about two years ago.

J. H. TURNER & Co. have received by late Express, direct from their buyers in Europe, a magnificent assortment of Black and Colored Silks, Morie Antiques, Spanish and Pusher Lace Shawls, Ladies' Black Jackets and Costumes, Cloth Jackets, Evening Dresses, Camlet Costumes, Fancy Skirts and Skirting, Ladies' and Children's Leghorn Hats, and a large assortment of Dress Trimmings, Ornaments, Flowers, &c., &c.; also, by late arrivals, an assortment of Brussels and Tapestry Carpets and Rugs.

LONDON HOUSE,
Victoria, V. I.

THE fashion in ear rings in Paris is little globules of rock-crystal, filled with water and miniature sea-fishes and molluscs. Another suggestion is to make ear-drops of gold cages, with brilliantly colored birds within—size and weight not taken into consideration so long as the fashion holds. Some of the John street jewellers have already introduced gold flower baskets. Bugs and snakes have long been 'the style' for personal adornment. What next?

STEAMER CALIFORNIA.—This vessel left yesterday morning between nine and ten o'clock for San Francisco. Her cargo was made up from the Sound and this colony. Her passenger list was small. In the cabin were Mrs Carey and two children, Col Foster, U S A, T P Chubbs, Mrs Randall, and a few with tickets from the purser immediately before leaving. Altogether in both cabin and steerage there would not be over a dozen.

STATISTICAL INFORMATION.—We have to acknowledge the receipt of a neat pamphlet containing useful information concerning the colony of British Columbia, embracing the statistics of government, the resources of the colony, its leading features, &c. It is edited in Ottawa, Canada, by Mr A Harvey, from information furnished by Dr Powell of this city. We were handed a copy of the same some time since, when a more extended notice was given.

HORSE RACE.—We are informed that an exciting race will come off on Beacon Hill course at 2 o'clock this afternoon. The race is between Mr Harris' Royal Bill and Mr Williams' Grey Billy, for $25 a side, each gentleman to ride his own horse. The distance, 200 yards, is short, but it will be the more exciting and no doubt draw a large crowd.

IT has been said of late, that the world, and New York in particular, was going to ruin through female extravagance. A lady says 'that in this age, when the division of labor has become universal, it seems but right that as men make all the money women should spend it.' Whoever the lady is she has an ugly trick of arguing the point.

H M S MINOTAUR, iron armoured frigate, 2350 horse power, with a four-bladed screw, was put under six consecutive hours steaming off the Isle of Wight, in March last, and ran 91 miles in 6 hours and 2 minutes. The vessel is not considered to have reached the speed of which she is capable.

ON August 18th next, there will be a grand total eclipse of the sun, in India. Various scientific expeditions have been sent from England to make examinations. One of these, taking a photographic apparatus, will have all expenses paid by the English Government.

VICTORIA HOUSE.—Just received at this establishment by Express, direct from London and Paris, the latest novelties in Bonnets, Hats, Dresses, Mantles, Jackets, &c., and a large assortment of the newest styles of Trimmings, Flowers, Ornaments, and of the miscellaneous articles for ladies' wear required during the present season. *

IN another column will be seen an advertisement of Mr Reed's, Merchant Tailor, Government street, of a splendid assortment of French and English cloths, which he has just received direct from Europe. They are well worth inspection.

Such is the state of famine in Ic[illegible] and that those who were employed to carry relief to the sufferers, have found several villages without inhabitants. The corpses of the poor starved creatures were lying unburied in the streets and houses.

James Ferguson, of Barnet, Vt., now 97 years old, a native of Scotland, is in vigorous health and unimpaired intellect, and works every day. He wears a coat whose cloth was woven 190 years ago in Bushlivar, Scotland.

MRS Disraeli's late party was a grand affair. The Premier took the Princess of Wales to dinner, and Mrs Disraeli leaned on the arm of Albert Edward. Other members of the royal family were present.

THE Emily Harris arrived late last night from Nanaimo. She reports the arrival of the Sparrowhawk to coal before leaving this morning on her northern trip. The Shooting Star was still on the berth loading.

COUNTY COURT.—The case of the Rev. Thomas Somerville vs. the Trustees of Pandora Street Presbyterian Church, occupied the business of the County Court yesterday until late in the evening.

FOR PORTLAND.—The steamer G. S. Wright, for Portland, left here on Thursday morning with twenty-five tons of freight, six white and the same number of Chinese passengers.

THE word 'flirt' is derived from the customs of the gallants of Louis XIV's reign, who used to address their lively girlish friends as *'ma fleurette,'* or 'my little flower.'

MISS Mary A Levers, of Jackson township, Wood county, Ohio, is 12 years old, and weighs 525 pounds. She is still growing.

MRS H B Stowe, author of Uncle Tom's Cabin, has published a new work styled Men of our Times, which is unfavorably critised by the press.

THE steamer Enterprise left yesterday morning for New Westminster, taking some freight and a few passengers. The Express to Kootenay also went by her.

VICTOR Emanuel has had several fits of apoplexy. The present state of his health causes much anxiety.

THE ceremony of 'drumming out' is to be dispensed with in future. So says the *Army & Navy Gazette.*

THE Japanese girls are said to be great coquettes and very fond of shopping. Such qualities are not peculiar to Japan.

ARBITRATION CASE.—The evidence in this important case—Rogers vs. Stamp—closed a few days since.

IT IS reported that some Philadelphia contractors are going to light Constantinople with gas.

ALL the wars in Europe for the last fifty years are supposed to have destroyed more than 3,000,000 lives.

A PARISIAN paper, *Le Petite Journal*, it is said prints 446,000 copies daily.

HOOPS are now restricted to street wear in Paris.

"THE LIFE OF THE FLESH IS IN THE BLOOD," was said by inspiration long before Harvey's discovery of its circulation had brought to light its purposes and uses. How we know not only that "life is in the blood," but that disease inhabits it also. Many of the disorders that pervade the human frame, have their home in it, thrive and grow in it. The celebrated Dr. J. C. Ayers, of Lowell, has had regard to this important fact in making a Remedy to cure these disorders. His Extract of Sarsaparilla purges out the impurities of the blood and induces a healthy action in it that expels disease. This looks reasonable, and it is true, for we know by our own experience. Seldom as we taken any medicine, we have nevertheless several times been under obligations to the skill of Dr. Ayer for the relief which his remedies never fail to afford us when we are obliged to have recourse to them.—*Catholic Hatifax N. H.* *

Court of Common Pleas.

FEB. 14, 1868.

(Sittings at Nisi Prius in London, before Lord Chief Justice BOVILL *and a Special Jury.)*

THE BRITISH COLUMBIA, ETC., SAW MILLS COMPANY (LIMITED) V. NETTLESHIP.

This case occupied the whole of yesterday. It was an action to recover damages for loss sustained by the non-delivery of some machinery.

Mr C. Pollock, Q. C., and Mr W. Williams appeared for the plaintiffs; and Sir George Honeyman, Q. C., and Mr Lanyon, for the defendant.

The plaintiffs, in the spring of 1865, chartered the defendant's ship Kent to carry to Vancouver's Island some machinery to set up a saw-mill there. The shipment was to be made partly at Liverpool, but the bulk of the machinery was to be received from Messrs Forrest & Barr, engineers, at Glasgow. The value of the machinery was about £5,500, and there was to be a lump sum of £1,225 for 350 tons of freight, with £3 10s. per ton for extra freight. The machinery was placed in packages, and one of these, which was numbered 43 in one list and 46 in another, never arrived at the destination. This particular package was 9 feet long by 2 feet broad and deep, it weighed 2½ tons, and contained spindles and other pieces of machinery, which were worth at Vancouver Island £500, and without which the remainder of the machinery would be useless.

The plaintiffs laid before the jury a great deal of evidence to show the way in which the shipment of the various packages had been checked. According to the documents, the package 43 appeared to have been shipped, and the mate's receipt had been given for it.

Sir George Honeymoon called no witness, but submitted that the box was of such a size and weight that it could not well have been lost or mislaid, and that if it had been placed on board in the Clyde it must have been found on board at Vancouver's Island. He also commented upon the fact that it appeared upon the defendant's evidence that there had been a mistake in reference to the shipment of one package, and that the list of packages appeared to have various alterations and corrections in them; and he submitted that this might account for the package 43 appearing in the lists as having been shipped when in fact it had not been.

The Jury found a verdict for the plaintiffs.

The Lord Chief Justice said he perfectly agreed with the finding.

By Electric Telegraph

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Reported Acquittal of the President.

PORTLAND, May 29—The President was acquitted yesterday on all the articles of impeachment.

[The above message only, was reported last evening just as the line was in order.]

The Dominion of Canada.

We make room for one of the last speeches of the late lamented D'Arcy McGee, delivered a short time previous to his assassination, feeling assured it will be acceptable to his many friends and admirers in this Colony :

On the 3rd March, at Montreal, the Hon. D'Arcy McGee delivered an eloquent address, taking for his subject "Our New Nation and the Old Empire." We regret we have only space for a few extracts. The eloquent speaker, having given a brief sketch of the new constitutional system of Canada, said :—

Allow me now to point to the map of the dominion and say something of the physical features of the country this constitution is to govern. The dominion, as it is, extends only from the Nova Scotia coast to the Hudson Bay Company's pretended boundary; but steps were already taken at our preliminary session, short as it was, to incorporate the habitable parts of the Northwest, and overtures have been already made for the admission of British Columbia. The distances, I know, are enormous—3,600 miles between the most distant points in one direction and 2,600 in another; but these distances, it is always to be remembered, are on the gigantic scale of American geography, not on the minute scale of Europe. Wide as are the distances, it is as natural for us to desire an outlet seawards, both east and west, as it is for our neighbors; it is as natural as for a man to prefer a corner lot for his own dwelling or a corner store for his business. The oceans are definite and indisputable boundary lines, which no Ashburton treaty can quibble away. British Columbia has five degrees of Pacific frontage, and even the grasping Californians could afford to leave us so much of an outlet—for as an outlet mainly it is valuable; and if Alaska were worth $7,000,000 to the United States, Columbia cannot be worth less to those who may hereafter possess and govern it. But the way to secure Columbia is to colonise the Saskatchewan, and this the Columbians themselves very clearly comprehend. We have all read, I am sure with great pleasure, the resolutions of a meeting held at Cariboo on the last day of 1867, in which they cordially hail the new dominion and propose the admission of their own province, and in which they add this expression of opinion in relation to central British America :—

"That this meeting respectfully invite the undivided attention of the Dominion Government to the boundlessness of that fertile belt of country situated on the banks of the Saskatchewan, and earnestly recommend that ample means of access thereto be immediately provided, with a view to its more rapid colonisation, thereby cementing and consolidating the contemplated union of this colony with the dominion of Canada."

If I could borrow Sterne's starling to keep constantly repeating in the ears of our statesmen one phrase, it would be—"Colonise the Saskatchewan!" The future of the dominion depends on our early occupation of that rich prairie land—the only large extent of prairie remaining unsettled in any part of America. I should feel tolerably free from anxiety as to our future in that direction at least, if we had 100,000 settlers on the Saskatchewan; they would not only feed British Columbia, but enrich themselves, Ontario, and the dominion; the Ottawa Canal would soon be burst open at the farther end by the bulk of British freight they would set afloat upon Lake Superior and Lake Huron. And I do not hesitate to say that if a land policy as liberal as that of the United States is established over the rich prairies of our Northwest, it will be quite possible to increase the 10,000 of our fellow subjects already there ten fold within ten years. These are views which are sneered at sometimes as visions of empire; and nothing is easier than to sneer in that manner. So any one might have sneered at the dream of a Prussian empire when, at the time of the peace of Utrecht, Savoy and Portugal took precedence of Prussia in the order of European states; but we have lived to see a Prussian empire for all that. And surely in this age to subdue existing systems and reconstruct the map of an old and populous country, is not more difficult than for us, in British America, to populate a fertile wilderness, and call new communities into existence where nature herself provides the soil and calls aloud for men to go forth and occupy it. Whenever there are 100,000 inhabitants on the Saskatchewan, of whatever origin or allegiance they are, British Columbia will belong to them—that is, as I prefer to hope, will belong to us.

He then, having described the extent and population of the dominion, said :—

The territory is there—the constitution is there—have we men in high places able enough, bold enough to uphold the one and to occupy the other? The constitution, all men must be taught within or without, is not for sale; and as to the territory, there is, I believe, no part of it for sale at present. We are not yet among the bankrupt monarchies that have islands, and colonies, and subjects to dispose of, to a flush republic. If, as has been modestly suggested in California and at Washington, a proposal to buy British Columbia or Nova Scotia, or any other province were made to any Government, possible in England, I venture to say the answer given would be very like that of the brood mare in Reynard the Fox, to Isegram the wolf, who wanted to know the price of her foal in the winter of famine; the mare answered that the price of the foal was written on the shoe of her hind foot, where Isegram did not care particularly to look for it!

Mr McGee then proceeded to deal with the question of confederation as it is at present being agitated in Nova Scotia. He said :

I shall venture before I close to add a few words on another important point, the attitude taken up by the majority of the people of Nova Scotia in asking for a repeal of the union of British America, so far as already accomplished. I will suppose without cavil that we should take for granted what is so confidently asserted, that the majority of the electors of Nova Scotia are at this moment repealers. I am sure you will all agree with me that this is a state of feeling very much to be deplored, and that if there is anything in reason, which the statesmen of the dominion can do to satisfy this Nova Scotia majority, that it ought to be done—frankly, voluntarily, and at once. As to angry and unjust things that have been said and printed in Nova Scotia against this part of the dominion, we must not stop to answer railing with railing, but if injustice has been done through our means in whole or in part, it is surely not too much to ask of those who say so, to point out the particular acts of injustice? If we have wronged any one, it is our first duty to make reparation; and I for one am heartily with the Nova Scotians, or any other subjects (if there are any) who have been wronged under the union, in demanding that early and ample reparation shall be made. We must not allow a question of tariff or any other question to separate us and so important a section of our fellow subjects forever; but at the same time we have a right to look to Nova Scotia not to imperil the future of British America—the future of free institutions on this continent—by overstating or exaggerating their complaints against the union. At Ottawa, during the few weeks of the session, I was not able to [illegible] House from ill-health; but I believe I am correct in saying that no members of the Dominion Parliament were heard with more attention than those from Nova Scotia, and though they fought their election battles over and over again and made one demonstration against the proposed temporary tariff, yet there would be, were Nova Scotia to separate from us to-morrow, no trace of a record on our journals—no motion of their own making—no constitutional protest whatever to justify their demand for separation.

That the popular representation of Nova Scotia at Ottawa is not larger is to be regretted; it is a disparity she shares with old Scotia in the United Kingdom and with the small states in the United States, and with all local bodies in every legislature on earth. But it is not alleged that she has not her fair share according to population. If her general revenues are contralised, so are ours and all the others, but it is not alleged that as to the local subsidies returned, she has not got her fair share—as much as we have in Quebec or Ontario, or New Brunswick. In any other respect, I repeat, if the peninsular province has been unfairly dealt with, let us see the particulars; but really at present there is much more ground apparent for saying that Nova Scotia does not deal fairly by the rest of the union in not giving the union a fair chance, than that we are not dealing fairly by that province (hear, hear) For it cannot be called giving the union a fair chance to judge it and condemn it as they have done, and try to break it to pieces on six weeks' or six months' experience. It is utterly impossible that they, or we, or the mother country could decide, on the first few weeks of the first session, whether the Dominion Parliament is capable of working or not for the common benefit of British America. I assert that the promise of a fair trial, implies the granting reasonable time to that trial, and that the first six weeks or six months of a new system such as ours is not a reasonable time in which to judge it upon its merits or even to ascertain whether it has merits or not.

And I will beg the Nova Scotia repealers to remember this ere it is yet too late—that it is not Canada (as they call us) they are resisting in the course they are taking; it is not our wisdom or our policy that is at stake; this constitution is not our invention; it is their own inheritance as much as it is ours, the work of their fathers, which we have copied and borrowed in all the five main principles of the British system I do not understand them to object especially to the federal arrangement of our legislative bodies into local and general, yet that is the only novelty in the whole Constitution. All the rest is strictly British, and therefore this charter is as much the birthright of Nova Scotia as it is of Canada, and no more [illegible] told, we here on the St Lawrence or the lakes—certain theoretical or sinister-minded constitutional-mongers, who seek to impose upon them or will for their freedom. Out of other scenes and other times these ancestral principles themselves appeal to Nova Scotia for a fair trial; from the dungeon of the confessor and the martyrs block—from the meditative solicitude of the sage, and the eventful arena of the greatest statesmen of England's most stormy and trying, and triumphal days), the British Constitution, *minus* all taint and flavor of feudalism, appeals to British America that she shall not be abandoned, dishonored or forgotten by men sprung from the loins of her defenders, and martyrs and confessors. (Applause.)

While referring, Mr President, to the electional difficulties which lie in the way of union, let me express to you my sincere congratulations at the harmony and good feeling which marked the first session of the Local Legislature at Quebec. I am not one of those who meet our new system with the maximum of exaction and the minimum of encouragement. I think we must all learn to bear and forbear a little more with our new institutions, in order to insure their habitual easy working hereafter. In this respect I rejoice at the good example shown by this province, as was very justly observed by his Excellency Sir Narcisse Belleau in closing the session, and I hope it is not too much to predict for the former province of Lower Canada, although we have some peculiar complications of interest in this community, that this province will always be found one of the best exemplars and strongest securities for the general union of all British America.

We have, gentlemen, as I have endeavored to show you, obtained a constitution for British America which includes the federal element considered essential to our long American distances, with all the best results achieved through many ages of anxiety and labor and struggle by the best minds of Great Britain and Ireland. We have obtained a constitution uniting in an eminent degree the two objects of all government—liberty and stability; a constitution that includes the recognition of every right, civil and religious, near and dear to the heart of man. If we had won this constitution in battle and paid for it in blood, we would be more conscious than we are of the value of the charter we possess; if we desire to lose it beyond redemption, we would then, perhaps, be made aware, when too late, of the nature of our loss. In a time of peace, as concerned her own dominions, by the voluntary act of the Imperial power this charter was gracefully conceded to us by our Sovereign, and by it we are asked to stand! With the blessing of Heaven upon that just and generous charter, there is no contingency that can arise to rob us of its privileges, except discord and faction in our ranks. Here, gentlemen, I take my stand, and I would not desire a better or higher occupation for the remainder of my days than to devote them to the defence and illustration of this constitution. I do not pretend to be incapable of improvement; let time test its provisions and experience regulate their operation. Even from its foes it is entitled to a fair trial, but what is it entitled to from its friends? It is not for the friends of the constitution to give a cold, or drowsy, or perfunctory support to the system of Government they uphold. Surely zeal is as lawful when excited on behalf of established institutions as when roused by appeals to the passions on behalf of discord and disunion. And assuredly, also, the interests comprehended in our great experiment—covering a continent in space, including the perspective of centuries in time—are of a magnitude to inspire the most ardent attachment on the part of friends of free government after the British pattern. I invoke, then, from all our educated men—in or out of actual politics—a closer study of the Constitution Act; of the sources of law and experience in England and America, from which its provisions have been mainly drawn; and a searching contrast or comparison of this system with that of the United States, or any other constitution past or present. As men who travel far, and see many strange things to amuse or instruct them, usually return more content with their own country, so my firm belief is that the more our constitution is studied and understood the more it will gain upon the intelligence, the good sense and the patriotic affections of the people of all the provinces now composing, or hereafter to compose, the Dominion of Canada—which may God long preserve!

At the conclusion the honorable gentleman sat down amid hearty and continued applause.

A vote of thanks to Mr. M'Gee was proposed by one of the audience and carried unanimously.

The Ocean Steamship Race.

Says the New York *Herald* of April 28th : The news received yesterday by cable from Liverpool that the steamship City of Paris, which sailed with the steamship Cuba from this port on the 18th inst., had passed Cape Clear, the southerly point of the coast of Ireland, at 7 o'clock A. M. (Greenwich time,) and that up to 9½ A. M. the Cuba was not in sight [illegible] a great measure, the conflicting opinions regarding the relative speed of these vessels, and virtually the great race. The bets freely made, prior to the departure and since, by scores, among commercial men, in some instances to large amounts, will thus be settled, and the public mind ready for the next sensation, be it of whatever nature. Assuming that the City of Paris reached Queenstown four hours subsequently (11 o'clock) she made the run in the very quick time of 8 days, 14 hours and 30 minutes. Those who recollect the unprecedented western passage this vessel made in November last—in eight days, four hours and 30 minutes from Roche's Point to Sandy Hook will not be surprised at this, her latest gallant achievement.

A Novel Gunboat.

A gunboat named the Staunch, built for the Admiralty upon the proposition and plans of George Rendel, of the firm of Sir William Armstrong & Co., has just been completed and tried at sea off the mouth of the Tyne, with the Admiralty inspectors and a numerous party of officers on board, including some members of the Ordnance Select Committee. A correspondent gives us the following account of the boat :

This vessel, though wholly insignificant in appearance and cost, represents some very novel principles. She is only 79 feet long and 25 feet beam; her draught of water when loaded, 6 feet, and her displacement 150 tons. She has twin screws driven by two pair of condensing engines of 25 horse power (nominal) combined, giving her a mean speed of 7½ knots. She carries as heavy a rifled gun as any in the navy, and at all appearance carries it most efficiently.

REMARKABLE DISCOVERY IN WESTERN AFRICA.—What a wonderful continent is Africa, and how mysterious, notwithstanding all the researches from Mungo Park down to Livingstone and others! Recently, within a few days' travel of Monrovia, a tribe of Mohammedans has been discovered near the St. Paul's River. They are far advanced in civilization, and can read and write the Arabic language. They have the Koran in most [illegible] gladly received copies of the Gospel of St. John—Van Dyck's translation, such as has been recently published by the British and American Bible Societies. What a striking comment this is on the useful efforts of our great American Bible Society! This is certainly a very remarkable set of native Africans. They express a strong desire to have a school established among them to teach the English language.

THE present ruinous financial policy, or rather want of policy, cannot be followed long. The American people are peculiar in this, that they bear evils patiently to the limit of forbearance, and then, as we saw in the uprising of the war, they move suddenly like a tornado, and sweep all before them. We warn our reckless and and extravagant Congress, the grasping boadholders, greedy manufacturers and national bank monopolists, against provoking the overburdened people beyond the limit of endurance.—*New York Herald.*

HOLLOWAY'S OINTMENT AND PILL.—The Joys of Home.—How often does it happen that happiness is driven from our hearths by illness?—sickness and sorrow are constant companions; though in most cases their tenure is short when Holloway's remedies are used to dispossess them. These medicaments can be confidently and heartily recommended to all invalids as the most easy, safe, and certain means of preserving all that is good, and casting out all that is corrupt, externally and internally. They are universally applicable by both sexes in every disease. Holloway's medicaments do not deteriorate by being kept, now are their properties changed by climate; they can be purchased everywhere, and the price at which they are sold is moderate.

TAKE AYER'S CHERRY PECTORAL to stop your Colds, Coughs and Bronchial Affections before they run into Consumption that you cannot stop. *

FRED PAYNE has removed his Cheap Shaving Shop to the opposite side of Johnson street, just above the Miner's Saloon. *

Medical.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors** and **Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of **Phthisis** and other **Diseases of the Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co,** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE,
NEURALGIA,
DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera,** as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copaiba and Cubebs. The injection is used in recent, and capsules more chronic cases.

GENERAL DEPOTS:

In Victoria—Messrs. LANGLEY & CO.

In Paris—At Grimault & Co.'s 45 Rue Richelieu.

Insurance.

Northern Assurance Co

FOR

FIRE AND LIFE ASSURANCE.

ESTABLISHED 1836.

INCORPORATED BY ACT OF PARLIAMENT,

CAPITAL, $10,000,000,

Fully subscribed by upwards of 700 Shareholders, whose Personal liability is UNLIMITED.

VESTED FUNDS, $3,000,000.

FIRE DEPARTMENT.

This Company grant Insurances against Fire on every description of property;

LIFE DEPARTMENT

This Institution accepts proposals at the rates of premium applicable to Europe, which on examination will be found more advantageous than those charged by other Offices having Agencies here. It unites all the advantages of a Mutual Association with the security of a Proprietary Company. The Participation Branch is conducted by the Proprietors of the Company for a charge of 10 per cent. on the premiums, without any other deduction whatever. Thus the assured enjoy the profit WITHOUT THE LIABILITY of the Mutual System.

The participation in profits has been most liberal. Should claims arise before the next investigation, a prospective bonus of nearly 1½ per cent. is allotted.

Phœnix Fire Assurance COMPANY.

LOMBARD STREET and CHARING CROSS
LONDON.
Established 1782.

For Insuring every kind of Property in all parts of the World from Loss or Damage by Fire,

THE PROMPTITUDE AND LIBERALITY WITH WHICH its engagements are always met by this Company are well known, and the importance of its relations with the public may be estimated from the fact that since its establishment, it has paid more than Eight Millions Sterling in discharge of claims for Losses by Fire.

The security offered to the public by the Phœnix Office is unlimited, comprising in addition to the large invested capital of the Company the whole fortunes of numerous proprietors, composed of some of the most opulent merchants and others in the United Kingdom. Annual and short time Insurances are effected upon all kinds of property in Vancouver Island and British Columbia on the most favorable terms.
